

Interpreting ATP Test Results

0 - 10	Considered Food Safe
0 - 100	Considered clean
101 - 200	Caution!
201 - 500	Contaminated
501 - 1000	High Risk of Infection
1000 +	Extreme Risk of Infection

The above table is a general guideline for public buildings. Your local health authority may require or suggest other ATP levels.
